Source Of Raw Material

Quality of the products is the most important factor. The products made with above-mentioned machine are for higher quality and better valued garments. To match the highest level of quality, our machines are imported from China/ Taiwan/ Korea. All raw materials such as Yarn, Resin and others are imported directly from China/ Indonesia/ Korea to maintain the consistent quality even for betterment of the quality of products. We are introducing much more sophisticated and advanced technology.

Power System

We have sanctioned load of 350 KW, Volt 440 from Savar station. We have two modern powers generator (Volvo) to support production at the time of power failure.
